Explanation: The animal shelter allocation was omitted from the 2014 approved budget. The original allocation request had been presented by an Animal Shelter representative at the February Council meeting to be paid from the CAGIT Certified Shares Fund but the Council denied the request since the CAGIT fund revenue has already been budgeted for other line items. It was suggested that the allocation be advertised for appropriation from the Riverboat Fund.

Nose asked how the \$90,000 requested amount had been determined and on what it was based. Commissioner Eppley stated that the \$90,000 is a lump sum of support. Nose noted that each year when the General Fund had been paying the salaries and benefits of the animal shelter from the Commissioners budget, the amount had increased each year but never totaled \$90,000. He suggested that we should only be paying for the salaries and benefits amount.

Ridenour made a motion to approve the \$90,000 request to be paid from the Riverboat Fund. Dawes seconded the motion and it passed by a 6-1 vote with Nose in opposition.

She stated that the machine is sending false jamming messages, makes bad copies and is unreliable when needed for tax collections. She stated that Perry Corporation, current provider of several leased machines for the county has quoted a cost of \$36.00 per month for the copier and \$14.45 per month for maintenance support and a yearly personal property payment of \$25.00. Shaw stated that the Treasurer’s departmental budget has enough money this year to pay for the new leased copier but requested that next year the costs be paid from the Solid Waste Administration Fees Fund which consists of a 3% administration fee of the total recycling fees collected by the Treasurer’s office and currently has a balance of \$17,000. WABASH COUNTY COUNCIL
RESOLUTION 2014-07

A Resolution Authorizing a Loan from the Cumulative Bridge Revenue to the County General Fund.

WHEREAS, the Wabash County Council has determined under authority of Indiana Code 36-1-8-4, that it would be in the best interest of Wabash County to authorize a loan of Cumulative Bridge funds to the County General Fund due to an inadequate operating balance. Council has determined an emergency situation exists as timely payment of employee benefits and vendor claims is at risk;

NOW THEREFORE, as there are sufficient funds on deposit in the Cumulative Bridge Fund account for current needs, this Council does hereby sanction a temporary loan not to exceed the amount of one million dollars (\$1,000,000.00) from the Cumulative Bridge Fund to the County General Fund. Said appropriation is to be used for operating expenses of Wabash County. Per Indiana Code 36-1-8-4, the Cumulative Bridge Fund must be reimbursed in the total amount of the loan made on or before July 1, 2015.

Passed by the Wabash County Council this 24th day of March, 2014.

Ridenour made a motion to approve the temporary loan from the Cumulative Bridge Fund. Dawes seconded the motion and it passed by a 6-1 vote with Nose in opposition.

Encumbered Funds: The requested amounts to be encumbered from 2013 into 2014 were reviewed by Council. Ridenour asked why the amount of \$24,380.00 needs to be encumbered from the Sheriff's department 2013 budget if the 2014 has been increased by \$25,000. Sheriff Land stated that this is the payment for the December vehicle lease. Auditor Conrad stated that this amount was encumbered in order to pay the December 2013 leased vehicle payment. Kaltenmark noted that the amount encumbered from the General Fund is much less than last year and that was the goal in making some changes to the process. Ridenour made a motion to approve the encumbrances as requested. Ruppel seconded the motion. The motion passed by a 7-0 vote.

Fact Finding of LOIT Operating Levy Freeze: Darren Bates, property & excise tax consultant and the County's website designer from Data Pit Stop discussed the current property and income tax situation in Wabash County and presented options for change to the current LOIT operating levy rate:

Option 1: Increase the LOIT Levy Freeze tax rate from the current .4% so it fully replaces the growth in property taxes. Bates explained that the Operating Levy Freeze LOIT rate may not be reduced or rescinded but the rate may be increased to replace the property tax levy growth that would otherwise occur. He noted that once the Operating Levy Freeze rate was adopted, property tax maximum permissible levies were frozen as of the year of adoption and could not grow annually. Bates noted that if the levy freeze rate is increased, Wabash County would have the highest income taxes in the State. If that happens, the County would have to resort to raising property tax rates and eventually have the highest property tax rate also.

Option 2: Do not increase the current levy freeze rate and thus, the LOIT Stabilization Fund, which currently supplements the decreasing operating levy collections will continue to make up the difference. The problem resulting is that the Stabilization Fund is estimated to be depleted by 2015. He also explained that the money paid from the Stabilization fund is based on all taxing units' budgets (except schools), so that if the spending is not controlled by the towns, city, libraries and townships, more money must be supplemented by the fund. School corporation increases have been funded by increased property taxes. Bates pointed out that according to the county's budget figures, the County has been doing a good job of keeping expenses under control. If the Stabilization Fund is depleted, the future growth in property tax levies will no longer be replaced by LOIT levy freeze and instead would be replaced by property taxes, thus "thawing" the property tax levy. Bates stated that this would work until the county comes up against property tax caps which limit the amount of tax paid by capping the assessed value of properties. Bates estimated that this could happen in approximately three to six years.

Regardless which option might be chosen by Council, Bates recommended rescinding the CEDIT Homestead credit because homeowners are currently being given the supplemental homestead deduction of 30%. Bates' figures indicate that the County is collecting \$1,345,000 (1/4%) which is being applied as a credit to county tax bills and some of this revenue could be used to pay for General Fund expenses if the State would allow an increase in the regular CEDIT rate. Even if the State would not allow an increase, the County's total income tax credits would be less by rescinding the CEDIT Homestead credit. Discussion followed and included the need to thoroughly review the other taxing units' budgets at the time of the non-binding reviews. Bates stated that the State has an agenda and that so much depends on what changes may come and must come from the State. Council made no decisions at this time. State

statute requires any changes in the rate to be made and certified before November 1st.

Kaltenmark asked for public comments regarding non-agenda items. There were no comments.

County Commissioner Eppley announced that a fact-finding meeting with Professor Larry DeBoer of the Department of Agricultural Economics at Purdue University has been scheduled for Monday, April 21, 2014 at 5:00 P.M. to discuss the County's LOIT operating levy rate, the current property and income tax situation and the effects of changes in business personal property tax. It was the consensus of all Council members that the other Wabash County taxing unit representatives should be invited and encouraged to attend.

Council reviewed:

February 2014 Auditor's and Treasurer's financial reports.

February 2014 Solid Waste Management District income statement.

With no other business to come before the Council, Ruppel motioned to adjourn the meeting; the motion passed by 7-0 vote.
